Bremerton, WA 98337

RE: September 5, 2002 Letter

Dear Ms Lunceford:

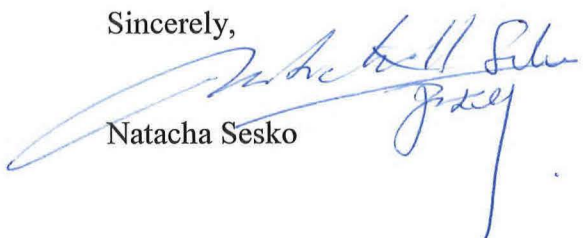

I received your letter and respectfully disagree with your conclusions. However, I am willing to discuss how we can take actions to mitigate your concerns. To remind you of the circumstances, we were informed by city representatives that no action would be taken on the Pennsylvania property until the issues concerning our property on Arsenal Way were resolved. As you know, court action has stopped any further removal of personal property from the Arsenal Way property until our appeals have been heard.

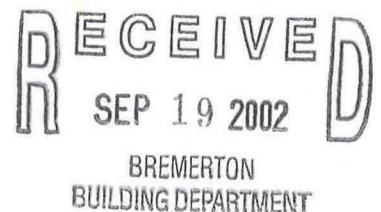

We feel we are being unfairly harassed not only regarding the Pennsylvania property but also as a result of your contact with the Kitsap County Department of Community Development concerning property we have under contract outside the city limits of Bremerton.

I have been working on a community project with the Port of Bremerton creating opportunities for trade with China. This project will end with a delegation led by Lt. Governor Brad Owens and port officials upon their return from China on October 25, 2002. I respectfully request that no action is taken by the City of Bremerton until my husband and I return from China on October 25, 2002. Following our return, I would like to meet with you or the appropriate city representative to address your concerns in your September 5, 2002 letter.

Thank you for your consideration.

Sincerely,

  
Natacha Sesko
